Greetings from sunny West Perth!

It's great to be back in Perth now that the scorching Summer heat is starting to drop off.

The year is flying past already and we're coming up to the traditional Easter break.

Have you remembered to

Swimming with Whale Sharks!

Wow - what an experience we just had in the lovely bay at Donsol in the Philippines!

We had the absolute joy of snorkelling with no less than five of the marine world's gentle giants - the fabulous plankton-eating whale sharks in a three hour adventure. My partner, Jo was so excited I

Business Improvement Group starting soon!

It's my pleasure to say that I've teamed up with my friend, David Bearsley from Superior Business Networks (SBN) to bring Perth-based small and medium-sized business owners an opportunity for both personal and professional development.

revisit your goals for this year and given yourself some milestones to aim for so you can measure progress?

Remember this useful business quote from consulting guru, Peter Drucker...

"What gets measured gets improved."

If you need any help with your goal-setting, don't hesitate to contact me.

And talking of measured - check out the blue suit I had 'made to measure' during our November trip to Sanur in Bali - well I do like to feel bright and cheerful. It was honestly the first time I've ever been properly fitted for a suit and I couldn't believe what a bargain it was!

could actually hear her yelling under the water! The largest one would have been about eight metres long and looked like a living submarine.

This is a true eco-success story - the locals used to hunt these beautiful creatures, but once they were educated on the importance of conservation, they changed the whole industry to make the giant sharks into a massive tourism attraction. You're never guaranteed to see a wild creature, but it's so well-organised at Donsol that it's as guaranteed as you're going to get - **highly recommended for your 'bucket list'**.

If you really want to grow your business to the next level this year in the company of a group of like-minded entrepreneurs, this could be just the ticket.

Only because we're launching this program for the first time this year, we're offering the series of ten modules for a ridiculously cheap price. Not only that, but you'll have access to free webinars and a facebook group forum so you can bounce ideas around with your fellow attendees.

We're kicking off as soon as we have the numbers, so if you're interested in making this a hugely successful year, **call David on 0419 912 970 or me, Tony on 0419 860 382.**

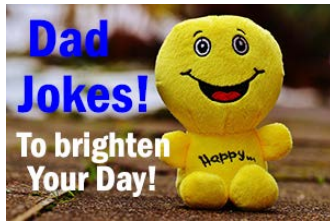

Are You Afraid of Success?

Being afraid to succeed is one of the most common problems that holds people back, along with being afraid to fail.

They're actually very much related and there's a very good reason.

For most of our lives, especially in our early years we are told to conform – sit down, be quiet, and don't do anything different to anyone else. [\[Read more of this BLOG post\]](#)

An International Joke

A worldwide survey was conducted by the UN. The only question asked was: "Would you please give your honest opinion about solutions to the food shortage in the rest of the world?" The survey was a huge failure. In Africa they didn't know what "food" meant. In Eastern Europe they didn't know what "honest" meant. In Western Europe they didn't know what "shortage" meant. In China they didn't know what "opinion" meant. In the Middle East they didn't know what "solution" meant. In South America they didn't know what "please" meant. And in the USA they didn't know what "the rest of the world" meant.
